Objective

Motivated computer science student seeking an internship or entry-level role as a Flutter developer where I can apply my knowledge of Dart and cross-platform mobile development, enhance my technical skills, and contribute to building efficient and user-friendly applications.

Professional Summary

Aspiring Flutter developer with a strong interest in building cross-platform mobile applications. Currently gaining hands-on experience with Flutter and Dart, eager to apply skills in creating user-friendly and responsive mobile apps. Focused on continuous learning and improvement, with a commitment to mastering Flutter development best practices. A proactive team player, enthusiastic about solving problems and contributing to project success.

Skills

Time Management, Teamwork & Collaboration, Fast & Quick Learning, Computer Proficiency, Relationship Building, Problem-Solving

Professional Experience

- Intern – HackerRank
Alexandria, Egypt (Remote) | August 2024 – October 2024
 - Participated in a summer bootcamp organized by HackerRank focusing on both technical and soft skills.
 - Learned Dart programming language and built small applications using Dart syntax and logic.
 - Improved coding and problem-solving skills through hands-on challenges.
 - Attended workshops on communication, teamwork, time management, and critical thinking.
 - Collaborated with other participants in interactive sessions and mini-projects.

Academic / Technical Projects

- Restaurant Management System – 2025

Technologies: Java, Object-Oriented Programming (OOP)

- Developed a desktop-based restaurant management system as part of coursework.
- Implemented core OOP principles including inheritance, encapsulation, and polymorphism.
- Features included order tracking, menu updates, and billing functionalities.

- Coffee Shop Mobile App – 2024

Technologies: Dart, Flutter

- Built a cross-platform mobile application simulating a coffee shop experience.
- Included a user-friendly UI, product catalog, order customization, and cart functionality.
- Gained hands-on experience in UI design, state management, and Flutter widgets.

- Community Garden Management CLI Tool – 2025

Technologies: Go (Golang)

- Created a command-line interface tool for managing plants, farmers, and garden tasks.
- Focused on modular Go development, user input handling, and data structuring.
- Demonstrated ability to solve real-world problems with efficient, minimalistic tooling.

Education

Bachelor of Science in Computer Science

Alexandria University

Expected Graduation: July 2026
