

## Fawaz Abdelrahman

Data Analyst

Based in Sana'a, Yemen

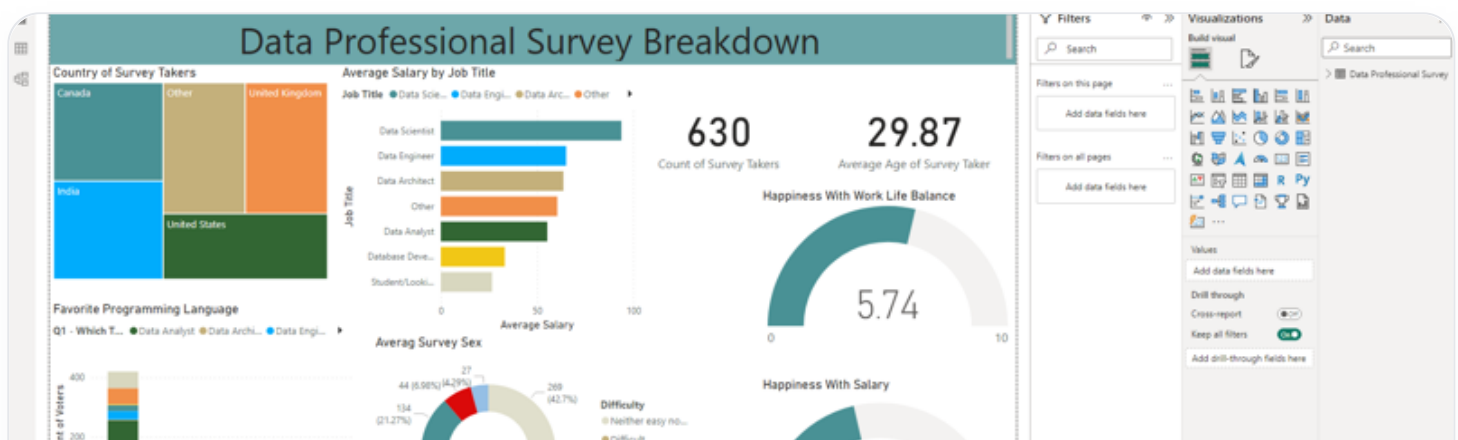

### ABOUT

Hello, I'm a data analysis professional with comprehensive experience and an unparalleled passion for exploring data and extracting valuable insights. Holding a recognized certification from Google for Data Analysis, I've honed my skills in analyzing big data and applying statistical techniques and machine learning to achieve business goals. With a background in petroleum engineering, I bring a unique perspective to data analysis, leveraging my understanding of complex systems and problem-solving skills to drive actionable outcomes. I'm always striving for innovation and continuous learning, ready to contribute to data analysis projects that contribute to sustainable success.
